

...JIG AMATEUR HERE GETS BRITAIN

E. T. Hall Sets Record for Milwaukee Thursday Night.

The first case in Milwaukee of receiving by an amateur of a radio signal from England was recorded at 11:17 p.m. Thursday night at the home of E. T. Hall, 243 Van Buren street, president of the Milwaukee Radio Amateurs' club, according to E. R. Williams, club business manager of the club.

The operator at the receiving station, Mr. Hall said, was Louis A. Winkler, with a "modified antenna" tuned set for a wave length of 150 meters.

The signal came from station "Belmont 1 N B," the exact location of which in England has not yet been learned, and consisted only of the code word "MPCIT."

The transatlantic feat now being made under the auspices of the Appleton Radio Heter League, and prizes will be awarded amateurs receiving and reporting the radio signals correctly.
